- Sturdy screws for a secure hold
- Effective protection against falls and accidents at work
- Suitable for MUNK platform ladders 052083 as well as 050084-050090 and 051084-051090

Description

The retrofittable back guard rail significantly increases safety when working on MUNK platform ladders. Its robust, bolted construction ensures a secure hold and provides effective fall protection while standing on the platform – ideal for use on construction sites, during assembly work or in industrial environments.

Installation is quick and straightforward: all you need is a spanner and a hex key. No special tools are required. The guard rail can be dismantled again if necessary. It is durable, precisely fitted and compatible with all common MUNK platform ladders:

We reserve the right to make technical changes and price changes.

- Steckbar model: 052083
- Platform ladders: 050084–050090
- With castors and handrail: 051084–051090

A must-have for anyone who takes workplace safety seriously – especially in professional trades.

Scope of supply
