Added value

Rational modular principle

- Single-rail ladders with fall protection rail in various lengths offer the right solution for every project
- Each individual component in the modular kit system meets the same quality and efficiency requirements

Highest quality

- High-strength welded connection of fall protection rail and rungs
- Lateral side-slip protection on rungs for additional safety

Various material versions

- Single-rail ladders are available in steel, stainless steel or aluminium depending on the application
- Wall anchors and accessories are also available in several materials
