

Vaccination/ Testing mobile container

Rapid operational readiness
and high hygiene standards.

In the **fight against the Corona pandemic**, the blanket testing and vaccination strategy is an important tool in the fight against the Corona pandemic. For this to be successful, it is essential to ensure clean and fast workflows – and this is exactly what **our mobile vaccination and rapid test trolley** is designed for.

Built on a **stable and durable construction** made of high-strength aluminum profiles, the compact transport trolley offers you not only **plenty of storage space**, but also a continuous, easy-to-clean work surface and dispensers for **disinfectants and hygiene products**.

We would also be pleased to manufacture **alternative equipment variants** for your individual needs, such as removable rear panels for removable back panels for transporting the trolley in trolleys – **contact us, we will be happy to advise you!**

Security. Made in Germany.

Vaccination / Testing mobile container

Standard features

- Welded frame construction made of aluminium
- Seamless aluminium shelf area for ease of cleaning and disinfection
- Ergonomic operation via two plastic handles
