Order no.: 111217

Decal set for extension ladders / rope-extension ladders

suitable for

3-section extension ladders / rope-extension ladders

Scaling ladders

Specification

Business division	Order no.
MUNK Rettungstechnik	111217

Description

Greater safety. Greater visibility. Less risk.

The reflective strip kits for fire service ladders ensure that extension and telescopic ladders are clearly visible, even during night-time operations on public roads.

Reflective strips are attached to the sides of the ladder rails, making the ladder visible to other road users. Easy to retrofit, perfectly tailored – a real safety benefit for every fire service.

We reserve the right to make technical changes and price changes.
