Description

Ergonomic comfort for effortless handling! The MUNK plastic handle is specially designed for lightweight doors, flaps, and control elements – featuring a thoughtful shape for optimal grip and a pleasant feel during frequent use.

Smart Ergonomics for Comfortable Operation

- Ergonomic design: Optimal grip with 170×27×45 mm dimensions for natural hand positioning and fatigue-free operation
- Lightweight construction: Weighing only 59 g – ideal for frequently used controls without adding strain

- High-quality plastic structure: Durable material with smooth surface for a pleasant tactile experience

Versatile Areas of Application

Door openers & controls: Perfectly suited for light doors, maintenance hatches, and access panels on enclosures and control cabinets. Not for heavy loads: Specifically designed for light-duty applications – not suitable for lifting heavy items.

Easy Integration into Existing Constructions

The fixed handle can be easily mounted on MUNK profile constructions and offers a cost-effective solution for comfortable operation without complex mechanisms.

Typical Applications

- Machine enclosures: Convenient opening of service hatches and maintenance doors
- Control cabinet technology: Ergonomic operation of electrical panels and housings
- Workstations: Practical handles for drawers and lightweight covers
- Testing equipment: User-friendly controls on measuring and testing setups
- Cleanroom applications: Hygienic surface for sterile environments
