Levelling foot

Type

Specification

Material Plastics	Weight/piece 180 g	ISO thread M8	Dimension A 50 mm	Dimension B 34 mm
Dimension C 8 mm	Business division MUNK Profiltechnik	Order no. 930604		

Facts

- Levelling screw, round
- Foot: Black PE, 34x8 mm
- Screw: galvanised, 45 mm useful length

Description

Perfect alignment for long-term stability! The MUNK Profile Technology M8 levelling foot is a high-quality base adjustment screw that compensates for uneven floors and aligns structures with millimetre precision – with 45 mm of usable length for maximum flexibility.

Robust Design for Long-Term Use

- M8 threaded screw: Galvanised steel with 45 mm usable length for stepless height adjustment
- PE base foot: Black polyethylene foot (34×8 mm) – non-slip, floor-friendly and wear-resistant
- Compact dimensions: 50 mm diameter, 34 mm height, with just 180 g weight

- Corrosion protection: Galvanised for continuous use in industrial and outdoor environments

Universal Application Without Prework

Easy installation: Simply screw directly into the M8 threads of the profile – no additional fastening elements required. Stepless adjustment: Full-length height compensation for precise levelling, even on significantly uneven floors.

Typical Applications

- Machine frames: Precise alignment of machine tools and test benches
- Workstations: Wobble-free adjustment of assembly tables and workbenches on uneven floors
- Conveyor systems: Stable positioning of conveyors and handling devices
- Automation technology: Millimetre-accurate alignment of robotic cells and gantry systems
- Enclosures: Secure floor anchoring of safety cabins and noise protection walls

Discover the MUNK M8 levelling foot – the precise solution for long-term stability, aligned today and reliably supporting tomorrow.

Scope of supply

- Adjustable foot: 1 x
